LETTER★OF★THE★MONTH

AMBY DREAMS

Reading the September 2011 issue of *BSM* and seeing the photographs of Hindustan Motors' Veer brought back memories of my modified Amby. It had a polished and ported head, Apex headers, Gypsy rims, anti-roll bars front and rear and five-way adjustable Volvo bucket seats. It was a good handler. I still dream of making an Amby hot rod pickup – maybe the Veer can be a starting point! I love reading *BSM* because it's the only Indian auto mag which runs modifying projects. I have a two-door Zen Steel

which I'm doing up now. Keep up the good work!
