## HM-Mitsubishi launches 2012 Outlander

■ HINDUSTAN MOTORS has introduced an upgraded version of the Mitsubishi Outlander. Mechanically the Outlander remains identical to its predecessor and is powered by the same 2.4-litre engine delivering 170bhp of power.

But what has changed is that the Outlander can now seat seven passengers instead of five. The features remain the same as well and that means you still get the fantastic Rockford Fosgate audio system, paddleshifters and so on. The new Outlander is priced at Rs 20.55 lakh, ex-showroom, Delhi.
