OFF-ROAD BOOT CAMP

Most SUV manufacturers offer their customers an opportunity to have some fun off the road in their cars. Joining the other manufacturers in offering such programs is Hindustan Motors-Mitsubishi, which recently held one such program for the owners of the Mitsubishi Pajero Sport, called the Mitsubishi Heart-in-mouth program.

This, of course, isn't Mitsubishi's first attempt at organising such events for its customers, but it is its first time providing owners with a completely controlled course. With water wading, steep climbs and drops, the owners had a good chance to experience their cars' off-road prowess. So, owners, keep your eyes open for a chance to test out your machine!
