

MITSUBISHI PAJERO 'HEART-IN-MOUTH' RALLY

The first leg of the 'Heart-in-Mouth' rally kicked off in Ludhiana. Many owners of the Mitsubishi Pajero turned up from Punjab and Chandigarh to drive their Pajeros on a 40-kilometre intensive off-road course. The course was designed to prove the rugged and capable off-road characteristics of the Pajero. The terrain which consisted of rocky terrain, dirt roads, water crossings on the Sutlej river bed, mud and slush, uphill and downhill gradients, was a challenging driving experience in extreme driving conditions. The first leg of this rally was flagged off from Hotel Sarovar Portico in Ludhiana. The

latter stages of the rally will take place in Delhi, Vadodara, Pune, Coimbatore and Bengaluru. The Heart-in-Mouth rally has been approved by the Federation of Motor Sports Club of India (FMSCI). Northern Motorsports is the official partner for the event. The entire Ludhiana event, from route reconnaissance, briefing participants about the course, providing back-up vehicles and expert drivers was managed by Northern Motorsports. While the current generation Pajero in India might be two decades old, it still remains one of the most capable off-roaders in the world and the Heart-in-Mouth proves just that.
