

HM adds new tech to Mitsubishi Cedia, BBC TopGear, July 11

Mitsubishi has introduced a new Cedia variant called the Select and it offers a host of new features. These include MapMyIndia's android-based 3G tablet that can multitask making calls, web-surfing, and more.

Adding juice to this tab will be the 12-volt supply for charging that will provide seven hours of entertainment as you wait in hour long traffic jams. Being portable, the tablet can be mounted either on the windscreen or at the back of the head-rest in case your car is driver-driven.

The Cedia Select also comes with a 4-speaker Kenwood DVD player with 6.1-inch touchscreen interface and a reverse parking camera.

Obviously the jewel of this car is the 2.0 liter 113bhp petrol engine that has won several INRC and other rallies. Carrying the sporty theme inside is the three-spoke black leather steering and oyster leather seats.

When you drive down like a pseudo rally car driver it will be comforting to know the Cedia sports safety features like front airbags. To drill the sporty theme further the Cedia Select 2012 is only available in three colours - white speed, black flash and rally red. The car is priced at Rs. 8.9 lakh (ex-showroom, Delhi).
