New Pajero Sport launched

■ AFTER a long wait, Mitsubishi has launched the Pajero Sport in India. The Pajero Sport costs Rs 23.53 lakh (ex-showroom, Delhi) and comes equipped with a 2.5-litre diesel engine that produces 178bhp and a maximum torque of 400Nm. This engine comes mated to a 5-speeder manual. The SUV gets a hard core shift on the fly 4WD system and 265/65 R17 tyres.

To begin with the Pajero Sport will be imported as a CBU, but the company intends to assemble this new version of the Pajero at its Chennai facility soon. The prices of the Pajero Sport may come down when it is assembled in India. The current Pajero SFX will continue to sell till assembly of the Sport begins in India.
