

**DESIGN AMBASSADOR Dilip Chhabria's retro-futuristic vision for the Amby**

Called the Ambierod, this is DC Design's way of paying tribute to the Hindustan Motors Ambassador while showcasing the prototyping abilities of the firm at the 9th Auto Expo. The exterior design is inspired by the 'hot-rod' culture from the USA while the interior is 'euro-chic'. The donor car for the Ambierod is a BMW 760i powered by a V12 engine.
